

SANAKO Study 500 Specifications

THE MODULAR SOFTWARE-ONLY TEACHING SOLUTION FOR EVERY SCHOOL

SANAKO Study 500 creates the modular teaching environment for every teacher and every school. Study 500 is a pure software solution that does not require any additional hardware and is therefore easy to install and maintain. This modern learning environment is simple to use for all teachers and students, as no sophisticated IT skills are needed. The Study 500 classroom experience can also be enhanced by purchasing subject-specific Extension Modules that add to the functionality of this innovative teaching solution.

SANAKO Study 500, Teacher's User Interface

ONE SOLUTION WITH A VARIETY OF FUNCTIONS

The modularity of the SANAKO Study 500 software means that the same solution can be used for many different teaching and learning purposes. Each specially designed add-on module extends and enhances the set of features of Study 500 to meet the needs of different subjects and teaching situations. At the same time, all teachers and students feel comfortable using the same system while its functionality varies according to individual teaching needs.

A SECURE INVESTMENT

Maintenance is no longer an issue because upgrades, service patches and bug fixes are available online! Also, SANAKO Software Maintenance service offers your institution the possibility to protect your investment, by guaranteeing upgrades for the duration of the agreement. Study 500 is a standard compliant system developed on the latest Microsoft®.NET platform. This maximizes its compatibility with future Microsoft® Operating System versions.
